## Documentation Example

**chart documentation format example** - chart documentation format example the chart and soap methods of documentation are examples of how to structure your narrative. you do not need to format the narrative to look like this; you can simply use these as an example of how to properly form a baseline structure for your narrative. **documenting discipline and performance issues** - about its purpose. for example, if the employee has consistently failed to meet company production standards, that should be explained in the documentation. • the documentation should have a statement of the problem or violation. this includes the classic who, where, what, how, why and when. **documenting a history - tulane university** - documentation tip: the chief complaint cannot be inferred. the outpatient note must stand alone for billing purposes; reviewers will not refer to prior documentation for a chief complaint. the following are examples of . documentation that are not considered chief complaints. patient here for follow-up visit (for what?) **clinical documentation guide - marin hhs** - is the clinical documentation in the medical record. there are other required documents which are more administrative. these are included in appendix g. sources of information this clinical record documentation manual is to be used as a reference guide and is not a definitive single source of information regarding chart documentation requirements. **documentation by the nurse - poor documentation example #1** 6th oct 09: dave appears upset this morning and was reluctant to have his dressing changed. dave complaining of a temperature and advised to take 2 acetaminophen (500mgs) every 4 hours. wound swab taken. next visit for 7th october 2009 at 10.00 **example #2 documentation guidelines for skilled care - pacah** - skilled documentation example of conflicting documentation: therapy —resident ambulated 50 feet with contact guard. resident able to wash hair and upper body in shower today. nursing —resident unable to walk due to non-weight bearing status. total care provided by nurse aide this am. **e.m.s. and documentation** - documentation each pre-hospital ems medical incident report should contain at . least the following basic elements: the reporting agency name. designation and incident number. incident date. dispatch times. incident location address patient's full name address number, phone, age and date of birth, patient's private physician. **example of a complete history and physical write-up** - example of a complete history and physical write-up patient name: unit no: location: informant: patient, who is reliable, and old cpmc chart. chief complaint: this is the 3rd cpmc admission for this 83 year old woman with a long history of hypertension who presented with the chief complaint of substernal "toothache like" chest pain of 12 hours
